SHORT BIO / ENGLISH

G. Felix is a Brazilian DJ, producer, songwriter, vocalist and HYBRID LIVE performer with 20 years in electronic music. Before the club circuit, he fronted rock bands - a background that still shapes the way he writes, sings and brings instruments into his productions. His catalogue includes releases on Armada, Spinnin', Repopulate Mars and Sola. In 2020, he ranked as Brazil's top-selling Tech House artist according to Beatstats. REBORN marks his current chapter: music, voice, analog hardware and narrative brought together as one body of work.

PROOF / IN ORBIT

Presence is part of the sound.

LIVE VOCALS / PERSONAL HARDWARE / REAL-TIME PROCESSING

HYBRID LIVE places G. Felix at the center of the performance: DJ set, live vocals, synthesizers, effects and a personal processing rack operate as extensions of the tracks. Elements built in the studio are reconstructed on stage in real time, preserving club energy while voice, improvisation and sound manipulation become part of the show.

FORMATS

Clubs, festivals and special presentations. The format can adapt to each event's duration and technical structure while preserving the core live-performance language.
